Put the following ships on your board by writing the ship's letters horizontally or vertically. DO NOT let the other player see your board.

## Instructions (2 player game)

Each player places their ships on their own board.

The first player calls out a position (e.g. F9). The other player has to check if they have placed a boat in that position and say "hit" or "miss".

If it was a "hit", mark an "O" in the position on the opponent's board. If it was a "miss", mark it with a "X" The other player should mark the shot on their own board.

If the shot was a "hit", the player gets another go. If the shot was a "miss", the other player takes their turn.

If all parts of a ship has been hit, the player must say "hit....you have sunk my (name of ship)".

The winner is the first player to sink all the opponents' ships.
